

WE REMEMBER JUNE 26TH, 2016

WE VOWED TO SHUT IT DOWN, AND WE DID.

On June 26th, 2016, anti-fascists successfully prevented a neo-nazi rally at the Sacramento Capitol. The Traditionalist Worker Party and the Golden State Skinheads, the former a white supremacist group and the latter a local neo-nazi gang, partnered up in hopes of spreading their insidious ideology. Instead, they were driven out by hundreds who had enough of their racist terror. In the fray, 9 anti-fascists were hospitalized, 6 of whom were stabbed by neo-nazis. What happened on June 26th is not an isolated incident. It is part of a much larger pattern of violent white supremacy. For decades, people have been fighting the forces of oppression by taking matters into their own hands. The struggle continues. We rise to meet it.
